

The salary of regular, full-time faculty and staff members is intended as full compensation for job activities performed for the university. However, staff may be requested to render service for other units of the university and/or to perform duties that are substantially outside the scope or reasonable potential scope of the individual's position. In such instances, the individual may be eligible to receive additional compensation if release time is not a feasible option. Performance of work outside the individual's home unit is subject to the approval of the home unit.

For Faculty: No more than one business day per week may be spent on the combination of internal additional compensated appointments and outside compensated consulting activity requiring approval. Faculty should avoid any conflict or appearance of conflict between such activities and primary university responsibilities. Refer to the Office of Academic Affairs Handbook for Deans, Directors, and Department Chairs for additional information.

For Staff: Please refer to Policy 3.10, Staff Compensation.
