Graduate Associate Benefits

We are so glad you are part of The Ohio State University!

This document will help you make decisions related to the retirement and health benefits you receive as a university employee. Note: Some of these decisions must be made within the first month of your start date. Please don’t delay.

RETIREMENT CHOICES:

Ohio State and its employees contribute to state retirement systems rather than Social Security. Included in the electronic paperwork for new hires, all employees complete a form acknowledging that earnings are not covered by Social Security. Since you are employed in a student classification, you have a choice about your retirement. Do you want to participate in the state retirement system?

I don’t want a state retirement plan.

You have 30 DAYS from your hire date to request exemption from retirement by submitting an exemption form. See attached or go to go.osu.edu/OPERSexemptform

Late and incomplete forms are not accepted. See a correct sample form at go.osu.edu/correctOPERSform

The form must be legible, accurate and contain your cursive signature.

I want to participate in a state retirement plan.

Do nothing, and you are automatically enrolled in OPERS.

You will receive a packet from OPERS with your plan options. Submit a retirement election form to OPERS within 180 days of your hire date.

I want to supplement my retirement contributions.

- A source outside of the university

International students are required to be enrolled in student health insurance. Ask the Student Health insurance office about possible exceptions.
