

2019 Value-Based Drug Plan (VBD) Medication Guide

Faculty, staff and their dependents enrolled in specified university medical plans and actively participating in the Care Coordination Program are eligible for the VBD. The Care Coordination Program helps with asthma, chronic obstructive pulmonary disease (COPD), diabetes and/or heart disease (coronary artery disease or congestive heart failure). The copay for certain generic drugs taken for these chronic condition(s) will be waived, and the member cost-share for certain formulary brand drugs taken for the chronic condition(s) will be reduced by 50 percent. **VBD discounts will only apply when the member uses a preferred pharmacy.**

This guide provides examples of qualifying generic and formulary brand drugs for each of the major categories of covered medications. **This does not represent a complete list and is subject to change with or without notice.** The VBD benefit guide does not dictate or control decisions regarding appropriate care. As always, you and your health care provider make the final decision on which medication(s) is/are right for you.

Asthma / Chronic Obstructive Pulmonary Disease (COPD)		
	Generics	Formulary Brand Drugs
Bronchodilators	albuterol nebulization solution, levalbuterol nebulization solution, metaproterenol, terbutaline	Arcapta Neohaler, Perforomist, Proair HFA/Respiclick, Serevent Diskus, Striverdi Respimat, Ventolin HFA
Oral Corticosteroids	dexamethasone, hydrocortisone, methylprednisolone, prednisolone, prednisone	
Inhaled Corticosteroids	budesonide nebulization suspension	ArmonAir Respiclick, Arnuity Ellipta, Asmanex HFA/Twisthaler, Flovent Diskus/HFA, Pulmicort Flexhaler, Qvar Redihaler
Combination Products	ipratropium/albuterol solution	Advair Diskus/HFA, Anoro Ellipta, Bevespi Aerosphere, Breo Ellipta, Combivent Respimat, Dulera, Stiolto Respimat, Symbicort, Trelegly Ellipta
Other Covered Medications	cromolyn solution, ipratropium solution, montelukast, theophylline/ER, zafirlukast	Atrovent HFA, Incruse Ellipta, Spiriva Respimat, Tudorza Pressair
Diabetes / Heart Disease (Coronary Artery Disease and Congestive Heart Failure)		
	Generics	Formulary Brand Drugs
ACE Inhibitors	benazepril, captopril, enalapril, fosinopril, lisinopril, moexipril, perindopril, quinapril, ramipril, trandolapril	
Angiotensin II Receptor Antagonists	candesartan, eprosartan, irbesartan, losartan, olmesartan, telmisartan, valsartan	Edarbi, Edarbyclor
Beta Blockers	acebutolol, atenolol, betaxolol, bisoprolol, carvedilol/ER, labetalol, metoprolol/ER, nadolol, pindolol, propranolol/ER	Bystolic
Diuretics	amiloride, bumetanide, chlorthalidone, eplerenone, furosemide, hydrochlorothiazide (HCTZ), indapamide, metolazone, spironolactone, torsemide, triamterene/HCTZ
