severance. During the time period when departments are waiting to determine if the grant or contract will be renewed or canceled, departments are permitted to temporarily change funding sources or reduce the FTE in accordance with the Reduction in Work Force-Unclassified Staff [Policy 9.15](#). In those instances, this change may not exceed six months; otherwise, the abolished staff member becomes eligible for the severance program. Staff members whose positions are abolished during this six-month period are not eligible for the severance program.

H. Health System employees receive a different severance benefit as defined by Health System policy.

II Program Design

- A. The severance period is based upon years of service and combines periods of working notice and severance pay. There is a minimum working notice period of two weeks. Units are provided discretion to divide the total weeks of working notice period and severance pay period in a way that best meets their business needs. The working notice period may not exceed two-thirds of the total weeks of the severance period unless agreed to by the staff member.
- B. Eligible staff receive a base severance period of two weeks, plus one and one-half weeks for each completed year of continuous service with the university. The maximum period for a specific continuous service period is 26 weeks. The actual termination date will be the date the severance period ends.
- C. The date used to calculate total severance benefit is the OSU Continuous Service Date. A staff member who is terminated from the university due to a reduction in work force may only receive severance pay once for a specific period of service.
- D. Severance pay, healthcare benefits and retirement benefits continue for the time period noted on the schedule, subject to retirement system and [Internal Revenue Service](#) regulations.
- E. The staff member's base pay and full-time equivalent (FTE) level determine the rate of severance pay.
- F. Following the approval of the reduction by the Office of Human Resources, Employee and Labor Relations, employees will be notified in writing of the reduction and applicable dates of the severance period including timeframes of the working notice period and the start of the severance pay period. RIF notification must be consistent with Reduction in Work Force policies [9.15](#) and [9.20](#). The severance agreement needs to be completed as stated below:
 1. Classified Civil Service staff will receive the severance agreement and within 10 calendar days the employee must elect either displacement or severance. The date the severance agreement is signed will begin the severance period.
 2. Unclassified staff will receive the severance agreement and must sign and return it within five calendar days to be eligible for severance. The date the severance agreement is signed will begin the severance period.
- G. Lump sum options are not available. Severance pay will be paid monthly or biweekly, based upon the appointment at the time of reduction and will reflect all applicable deductions including taxes and benefits.
- H. The severance period ceases when the individual receives any other employment, the individual begins receiving Ohio Public Employees Retirement System or State Teachers Retirement System of Ohio retirement benefits or the individual's maximum benefit is achieved.
- I. Benefits and deductions that the employee is enrolled in at the beginning of the working notice period will continue during the severance period, with the same university sponsorship. Employees on severance may experience annual premium or cost increases as applied to all other employees.
- J. Benefits included during the severance pay period, with the same level of university sponsorship, if any, are as follows:
 1. Vacation and sick leave
 2. Medical, dental and vision
 3. Life insurance
 4. Retirement contributions (if allowed by applicable plan regulations)

L. Reduction in Work Force policies [9.15](#) and [9.20](#) outline the impact on benefits at the time of separation.

M. Severance payment costs are borne by the employing department. If displacement occurs for Classified Civil Service employees, the unit initiating the reduction in work force is responsible for the cost of the severance program.
